Position Rationale

H. Wilson Industries (2010) Ltd. is seeking an experienced pipelayer. Reporting to the Foreman the Pipelayer will be responsible for preparing and installing underground pipelines as required.

Position Accountabilities

- Assists other workers with general labour activities during trenching and laying of pipe.
- Work independently completing straight forward tasks as pertaining to the process of laying pipe on line and grade.
- Ensure pipe is properly bedded in granular or native material before backfilling occurs.
- Ensure all work is conducted in a safe and responsible manner.
- Be aware of changes to materials and techniques. Adapt easily to those changes.
- Work with a variety of hand/ power tools used in underground utility, variety of heavy construction equipment and a variety of new and salvage materials.
- Be aware of proper slinging of pipe, manhole barrels, etc. and ensure safe work procedures are followed during lowering of materials into the excavation.

Communication

- Communicate to “top” man materials needed to keep process of laying pipe moving in an efficient manner.
- Work as foreman’s eyes in excavation regarding safety of other workers.
- Bring to foreman’s attention any irregularities in materials being used.
